

CI PEDIATRIC THERAPY CENTERS

# BOOST

A SPECIALTY PROGRAM FOR ASD

# BOOST

*a specialty program for ASD*

---

## **Program Overview**

Boost is a 4 week, 3 days a week, 3 hours a day program that provides comprehensive speech, occupational and, if deemed appropriate, feeding therapy services. Goals target the areas of communication, sensory processing, routine and transition. The program is tailored to each child's unique needs and includes comprehensive evaluations to establish baselines and goal areas, as well as a home program upon completion of the program.

**Daily Program Schedule:** 2 hours of OT, 1 hour of Speech

## **Who Could Benefit**

Children who have just received a new ASD diagnosis or have reached a plateau in services and would like a jump start to reach new milestones. Children in the Boost program should be able to safely maintain a program that is 3 hours in duration daily.

## **Potential Goal Areas Include:**

- Sensory regulation and strategies
- Transitions
- Social skill development
- Establishing routines
- Communication
- Joint attention
- Play
